 Person

## II. Summary of Contact:

Re: Aerospace scan of Nix original film. Scanned approximately 30 frames (numbered on film: A-B4 and B8-D2). Leontis is bringing film from California today.

Re: Examination by Slater/Scott of backyard negative, May 4th.

This examination based on Aerospace findings after processing the image on the negative after scanning: two linear structures not seen before (1) running width of chin and slants up to right of picture, 30 degrees to horizontal, left to right; (2) parallel to (1) another line is seen under chin between chin and neck.

He also advises they look at scratch extending from right side of picture to the left of his chin running diagonally out into the background.

## III. Recommended Follow-up (if any):
